Public Comment:

Mary Repar: Good luck and best wishes to the Port in the New Year

Tenant Presentation:

Mark Mayfield from Beacon Rock Golf Course wanted to update the Port on storm damage, elk damage, and irrigation. Capital improvements: Front entrance deck needs an update, the kitchen exhaust system needs replacement- it cannot be professionally cleaned because it is not to current code, and the cart garage doors also need replacement (the wood is rotting and the weather stripping is falling off). The heating system in the restaurant is not effective, making it difficult to provide a comfortable temperature for guests. Mark would like the Port to provide a schedule for maintenance to fix these issues, with full understanding of the flexibility needed. Commissioner Waters asked clarifying questions about the garage doors and the heating system. Facilities Manager Doug Bill weighed in on the age of the structures and challenges. Pat clarified that the deck was scheduled for replacement this winter but the weather has interfered; this year’s budget includes costs for some of the cart garage doors. Commissioner Collins asked for clarification on some of the work that has been done in the past. Commissioner Waters shared his concern over the irrigation system, stemming back to 2013. Mark is sympathetic to budget concerns and the Commission encourages the staff to work towards resolving these issues as possible.

Bruce Nissen from LDB Beverage let the Commission know that January has been a rough month for business. The business carries $60,000 a month in overhead. He is looking into funding resources to help make ends meet. A sheet of ice fell off the roof, severing the glycol line, which is a $13,000 repair. This contributed to production and revenue losses associated with the winter storm. He is reviewing insurance for the damage, and the Port will look into insurance coverage as well. He also announced that they have a new investor and the hope is that they will be able to open a new tasting room sometime this year.

Commissioner Collins closed the meeting to public comment at 5:10pm.

  ---MOTION--- Commissioner Waters moved to approve Resolution 7-2017 amending the Cell Phone Policy as presented. Commissioner Kingston seconded; the motion carried.

- **Resolution 8-2017 Declaration of Emergency:** Director Albaugh clarified that the state and the county have declared a state of emergency. The Cities of North Bonneville & Stevenson have also declared a state of emergency that will be ratified at their next City Council meetings. The idea is that there is a lot of clean-up to do including business damage. If there is $9,616,092.20 worth of damage statewide from the January 16-19 storm, it would trigger FEMA to provide reimbursement for repairs at a rate of 75 percent. Attorney Woodrich clarified that this resolution gives permission to waive the Small Works bidding process, per 39.40.280 (emergency exception to the State public works competitive bidding requirements as set forth in RCW 39.04.280 due to the exigent and emergent nature of the conditions listed above and the threat to life, health, and safety). Commissioner Collins encouraged proper documentation as this process was helpful in 1996 with that storm.

However, final action selling or leasing public property shall be taken in a meeting open to the public.

Chairperson Collins called the regular meeting back in session at 6:23pm.
