

What is redistricting?

Redistricting is the process of changing boundaries of voting districts so that all districts have the same number of people. This is how we make sure that everyone has equal representation in government.

Why?

As states and communities grow and change, people's representation in government begins to get out of balance.

Redistricting brings everything back into balance to ensure every member of the district is represented fairly.

For additional questions on redistricting please contact the Port of Skamania at 509-427-5484 or [port@portofskamania.org](mailto:port@portofskamania.org).
